[draft packet 072816 mr.pdf](#)

Ryan,

I've been working on it. Sorry for the delay...

Here's what I have so far.

I still need to finish my review/edit the "metals information"

I have only done my edits on the [Ex. 6 - Personal Privacy](#) package because it has all the attachments...

Since I had a pdf, I made edits to the document text of the attachment numbers and titles of the attachments (but I did not reorganize the pages). For all the other edits, I used the comment bubbles, so you could make the edits on the original...

So, order of the attachments is:

- 1 Outdoor Checklist
- 2A Soils Data Tables
- 2B Indoor Air Data Tables
- 2C Micro Vacuum Dust Data Tables
- 3 Health Officer Determination Form
- 4A Photographic Documentation
- 4B ServPro Indoor Cleaning Report
- 5 Metals Information

The main thing we wanted, was to have the metals info last, and I didn't want you to have to renumber all the attachments, so the 4A and 4B are designed to minimize hassle.

Also, the other items that are missing from these attachments are:

Action Levels or RSLs appropriate

Photographic log needs outdoor area before and after photos.

Do you have a word file for the metals info, so I can do a track changes on that, rather than do it in the pdf?

Let me know if you have any questions or need any clarifications.

Thanks so much,

Michelle

Hi Michelle. I hope the Saipan trip went ok.

Ex. 6 - Personal Privacy

I'm scheduling resources to help with Fruitland early next week, but I just rechecked my e-mail and I don't think I've received the comments/reorganization for our attachments, are those available? I'm still planning to line up enough helpers to get the attachments done by the end of day Wednesday.

Ryan

Thanks.

We've reorganized the attachments again, and I have some other comments on the attachments. I'm going to try to get my comments to you today.

But I made some suggestions in an effort to reduce the chances some statements could be misinterpreted, or I tried to make them more specific. I know it's a non-technical public document but I tried to eliminate some grey areas.
